**DETAILED ACTION**

1. This office action is in response to amendment filed on Aug. 11, 2005.
2. Claims 1-61, 74-77 have been canceled.
3. Claims 62, 65-67 have been amended.
4. Claims 81-84 will not enter.

Newly submitted claims 81-84 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: detecting message error rate, broadcasting an error message to base station when the error rate exceed an error threshold level. The invention originally (see claimed 62), was directed to providing a database of non-operating areas of the wireless network. This is clearly independent and distinct from the originally presented invention. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 81-84 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821 .03.

***Allowable Subject Matter***

5. Claims 62-73 are allowed.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
